RE: Employment of CRT Clients: Q4 of FY2021

This week's brief report provides FY2021 fourth quarter employment rates for clients served by Vermont's Community Rehabilitation and Treatment (CRT) programs for adults with serious mental illness. This report also includes rates for fourth quarters (April through June) of nine previous fiscal years, FY2012 through FY2020. Previous reports regarding employment rates are available online at:

<https://mentalhealth.vermont.gov/reports-forms-and-manuals/reports/statistical-reports-and-data>.

This report, like previous reports in this series, is based on analysis of client data submitted to the Vermont Department of Mental Health (DMH) by designated community mental health agencies and Vermont employment data submitted to DMH by the Vermont Department of Labor (DOL).

As you will see, statewide fourth quarter CRT employment rates bounce around from a low of 14.8% in FY2012, to a high of 17.6% in FY2014, to 12.5% in FY2020, and back up to 14.1% in FY2021.

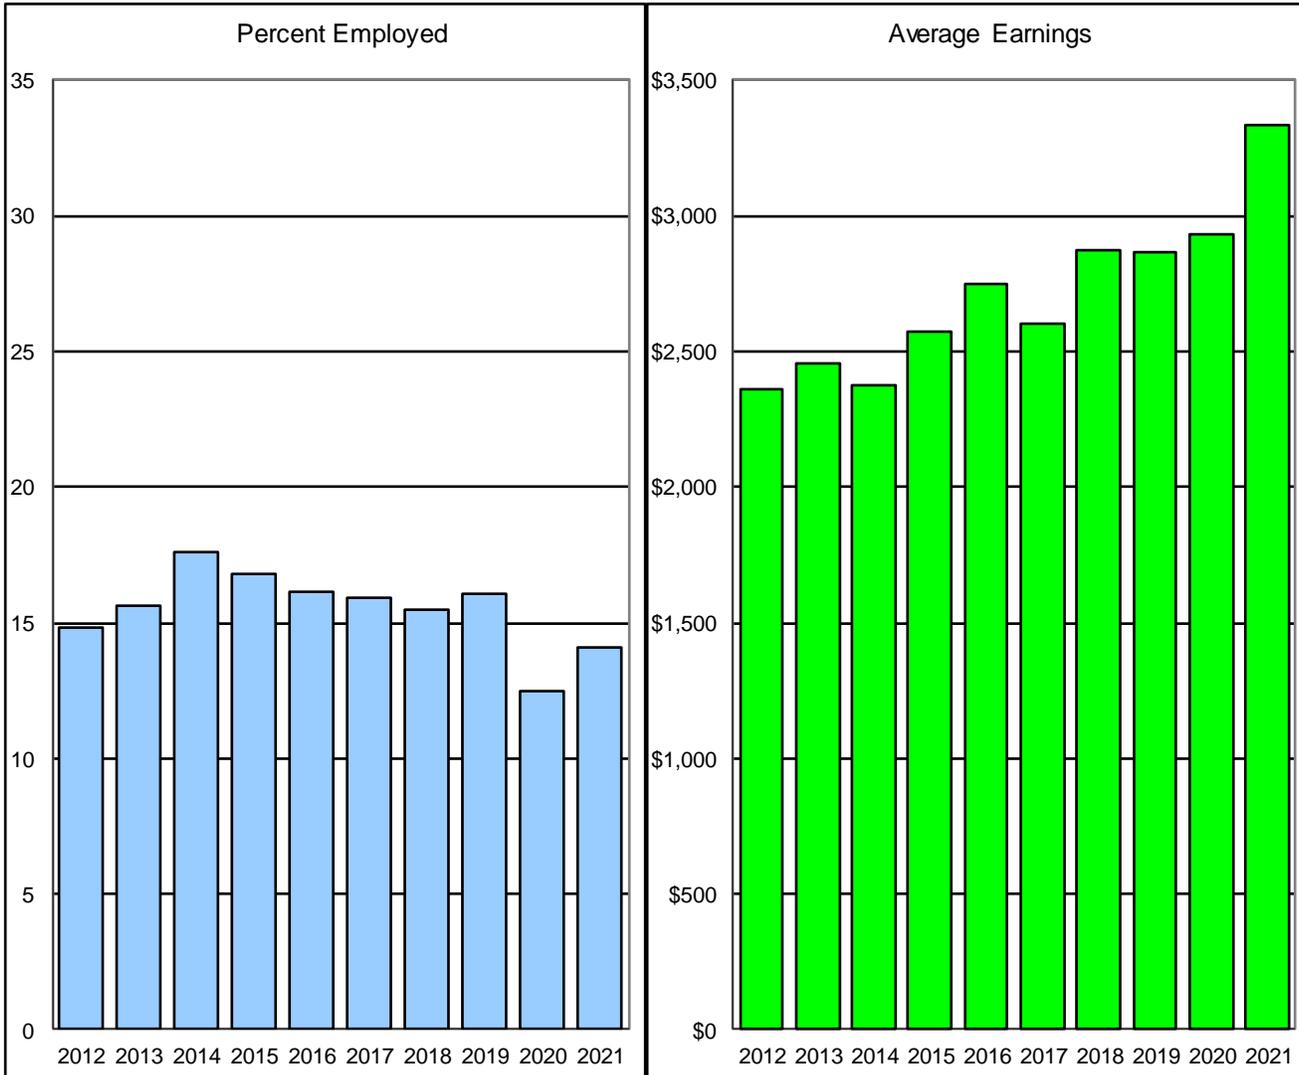

During the fourth quarter of FY2021, Northwest had the state's highest employment rate (22.6%), followed by Addison (18.6%). The lowest employment rates were in Pathways and Rutland (2.3% and 8.5%, respectively).

Statewide, average fourth quarter earnings per employed CRT client increased slightly from \$2,933 in the fourth quarter of FY2020 to \$3,336 in the fourth quarter of FY2021.

During the fourth quarter of FY2021, Rutland had the highest reported fourth quarter earnings per employed client (\$4,567), followed by Northwest (\$3,989) and Northeast (\$3,595). The lowest fourth quarter earnings per employed client were in Pathways (\$2,180), Bennington (\$2,468) and Washington (\$2,767).

As always, we look forward to your comments and your suggestions for further analyses of these data. You can reach us by e-mail at ahs.dmhpip@vermont.gov.

Statewide CRT Employment Rates and Average Earnings Fourth Quarter (Apr-Jun) of Fiscal Years 2012 - 2021

	Fourth Quarter of Fiscal Year									
	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>
% Employed	14.8	15.6	17.6	16.8	16.2	15.9	15.5	16.1	12.5	14.1
\$ per Employed Client	2,363	2,457	2,375	2,572	2,747	2,602	2,871	2,863	2,933	3,336

This report is based on analysis of the Vermont Department of Mental Health (DMH) and Department of Labor (DOL) databases. DMH client data are submitted by community programs in conformance with contractual requirements. DOL data are submitted by employers in conformance with state and federal laws. Workers who are excluded from DOL reporting are the self-employed, firm owners not incorporated and the following employee groups: elected officials, employees of nonprofit religious, charitable and educational organizations, unpaid family members, farm workers (with some exceptions), railroad employees, and employment in neighboring states. Analysis includes Community Rehabilitation and Treatment (CRT) clients aged 18 - 64 who were active during each reporting quarter and includes all employment reported for each quarter. Quarterly employment rates are lower than annual employment rates because not all clients who are employed during a year are employed during every quarter of the year.

CRT Clients Employed

Fourth Quarter (Apr-Jun) of Fiscal Years 2012 - 2021

This report is based on analysis of the Vermont Department of Mental Health (DMH) and Department of Labor (DOL) databases. DMH client data are submitted by community programs in conformance with contractual requirements. DOL data are submitted by employers in conformance with state and federal laws. Workers who are excluded from DOL reporting are the self-employed, firm owners not incorporated and the following employee groups: elected officials, employees of nonprofit religious, charitable and educational organizations, unpaid family members, farm workers (with some exceptions), railroad employees, and employment in neighboring states. Analysis includes Community Rehabilitation and Treatment (CRT) clients aged 18 - 64 who were active during each reporting quarter and includes all employment reported for each quarter. Quarterly employment rates are lower than annual employment rates because not all clients who are employed during a year are employed during every quarter of the year.
